ID	Risks	Probability	Impact	Planning strategy	Actions
1	Hardware unavailability due to importing delay	Likely	Major	Mitigate	Temporary hardware should be locally rented until new hardware arrives to workspace
2	Requirement change by the client	Likely	Moderate	Exploit	Client should be required to extend project period and raise project budget to accommodate new changes.
3	Management change	Rare	Extreme	Mitigate	Old and new management members should attend meetings with other stakeholders to discuss project structure, progress, policies … etc.
4	tool/software underperformance	Moderate	Major	Avoid	Software tools should be periodically tested and maintained throughout the project
